

December 8th , 2023

New learning, some old and some new friends.

Millions of memories, thousands of jokes, and tons of laughter in one classroom.

Joyful experiences of today will become cherished memories for tomorrow.

Independent minds, empathetic souls, helping hands our students!

EARLY YEARS-1 and 2

Summer Fields International

Road Safety Awareness Week - The early years explored different places by studying the road map like church, fire station, gas station, bank, pond etc. They reached their destination by identifying them on the maps and keep their vehicles on their places. It inculcates the habit of studying of road mapping and to develop their observation and awareness skills.

Construction of paper planes

The Early Years made paper aeroplanes by stripes of paper which enables learners to explore ideas while it develops a child 's disposition in various ways. This activity has been developed for curiosity and reflexivity but could be used for other areas of the outcome. Learners worked as a group to determine a joint purpose for the construction paper planes.

Cognitive Engagement

The classroom tables of early years learners are well planned so that they can get the stimulation of learning by doing. The pieces of the jigsaw puzzle were put together correctly by the learners. This type of puzzle encourages spatial awareness as well as hand – eye coordination while also teaching learners about the names of the animals.

EARLY YEARS-2

Learners of EY 2 observed the road safety by making the traffic light and reciting the rhyme of traffic light.

Learners of EY 2 made a road transport (bus) and pasted it on the road.

EARLY YEARS-2

Learners of EY 2 enjoyed playing a number game with the help of number pockets by placing the number cards in their correct pockets.

Learners of EY 2 were introduced to letter 'J' by making a jelly fish.

Learners of EY 2 observed the 'Environment Appreciation Day' and recognized the activities that are environment friendly and pasted the stickers accordingly.

STAGE- 1

Stage 1 learners discussed the traffic rules , road rules and other safety rules as a part of road safety week during their Global Perspective lesson.

STAGE- 1

Stage 1 learners explored different parts of the body during their science class.

STAGE- 1

Stage 1 learners discussed different emotions during their English class and made sentences on these emotions to enhance their vocabulary.

STAGE- 2

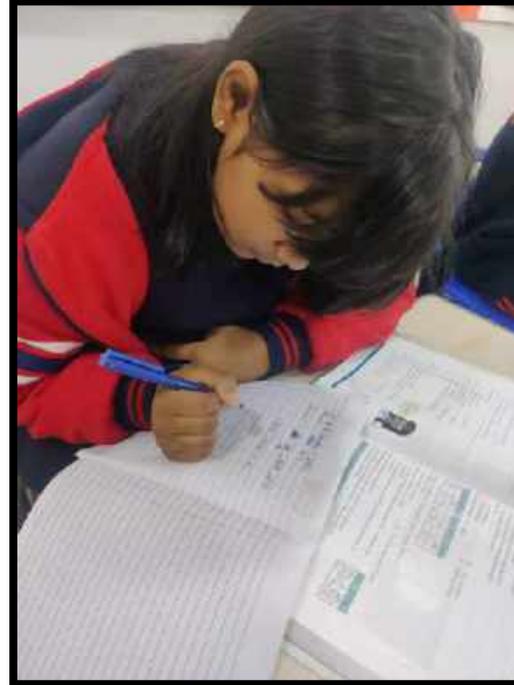

Stage 2 students were able to differentiate between open and closed electric circuits. They created a model of a simple circuit and explained how it works.

कक्षा ६ के छात्रों ने विराम चिन्ह परिवार को बहुत रुचि से सीखा और फिर विद्यार्थियों ने विराम चिन्ह परिवार पर आत्मविश्वास से कक्षा में चर्चा की ।

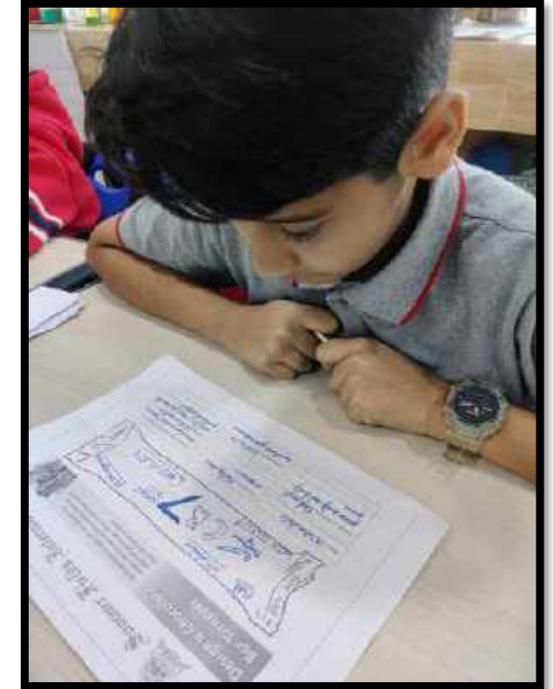

In Stage 8, learners focused on mastering the calculation of percentages. Their proficiency extended to handling discounts and increments through percentage adjustments, with a practical emphasis on real-life applications for these mathematical concepts.

GLOBAL PERSPECTIVES

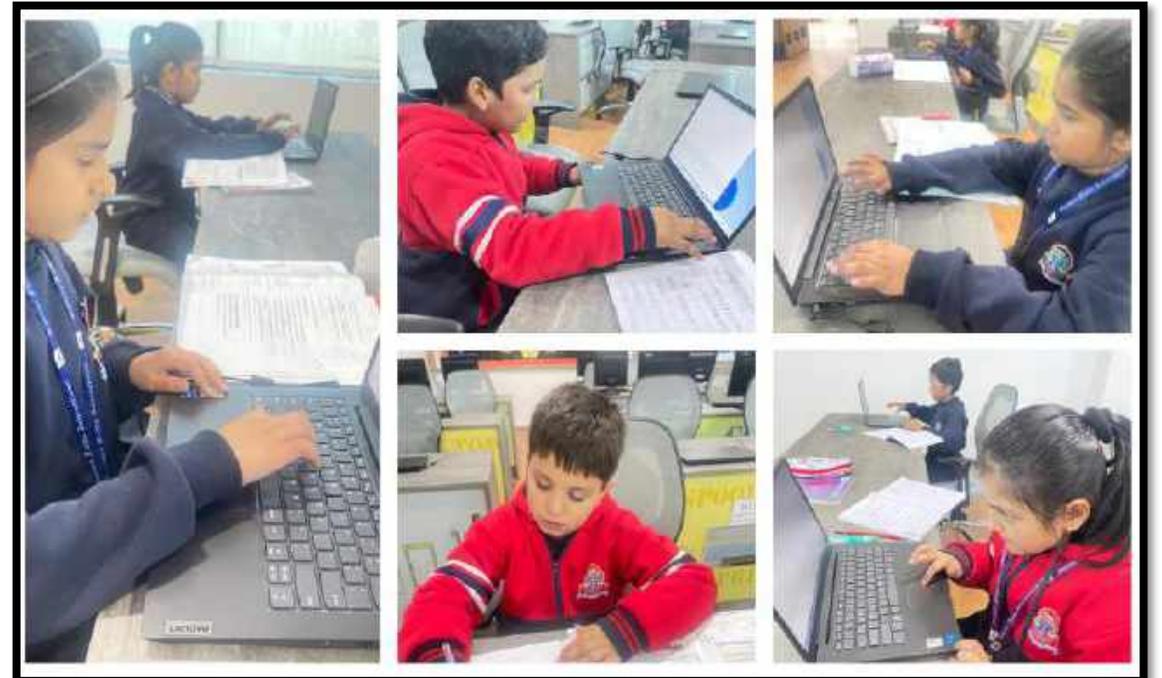

In Global Perspectives, Stage 6 learners were engaged in crafting chocolate wrappers. Throughout the process, they honed their understanding of crucial label elements, skillfully naming the product, creating catchy slogans, and making informed decisions about chocolate ingredients and flavors.

Stage 1 and 2 learners are honing their typing skills in a text editor, recognizing the importance of this foundational skill for effective communication and future academic and professional success.

Stage 4 and 5 learners practiced the MSWLOGO 'REPEAT' command while also creating journal notes. The 'REPEAT' command in MSWLOGO is particularly crucial as it allows learners to efficiently replicate sequences of commands, emphasizing the importance of automation and saving time in programming tasks. This foundational skill not only enhances their understanding of coding principles but also prepares them for more complex programming challenges in the future.

Stage 7 and 8 learners practiced the HTML 'LIST' command. Mastering this command is essential as it enables learners to create organized and structured content on web pages. Understanding how to use the 'LIST' command empowers them to present information in a clear and visually appealing manner, fostering effective communication through web development.

Physical education, promotes physical fitness, motor skills, and overall well-being through structured physical activities and exercises. It aims to instill healthy habits and an active lifestyle in students.

WINTER WONDERLAND - WORKSHOP

Summer Fields International

As Stage 7 and 8 learners set up their enchanting stall at Winter Wonderland on December 9th, they were delighted to partake in an enriching session led by Ms. Neera Kanojia, the Cambridge Head. During this enlightening experience, she shared invaluable insights into essential business techniques and accounting concepts tailored for these aspiring young entrepreneurs.

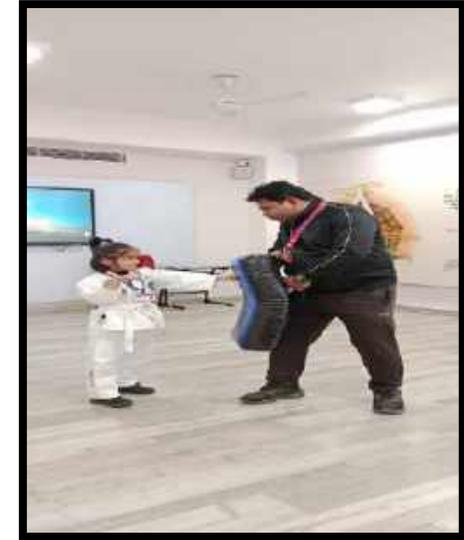

ENRICHMENT

Consistent practice of the skill, attention to detail, and mental preparation are key elements for success in skating competitions.

Taekwondo practice for competition involves a multifaceted approach. It includes honing fundamental techniques, improving physical fitness, and developing strategic skills.

INTER HOUSE CHESS TOURNAMENT

Summer Fields International

The first Chess Tournament was held at SFIS on December 1st, 2023. All the houses of the school participated with full enthusiasm. 3rd position went to Unity House, 2nd position went to Spirit House and 1st position went to Harmony House. Competition helps improve self-confidence and self-worth.
